## Profile

IT Professional with over 9 years of experience in developing web and mobile application. I am an experienced Frontend developer with 5+ years of experience in building high-quality, scalable, and responsive web and mobile applications using React and React Native frameworks. I possess a deep understanding of React and React Native libraries and their ecosystem and proficient in developing reusable components, managing state, and implementing data flow patterns such as Redux. I also have 4 years of experience in building server-side web applications using Node.js, PHP Laravel. I have hands on experience in implementing RESTful APIs, integrating with databases, and using third-party libraries and frameworks such as Nest.js, Express.js, Mongoose, Sequelize and Socket.IO.

## Skills

---

Frontend Tech	Javascript, React, Redux, Next.js, Typescript, NX Workspace (Micro Frontend)
Mobile Platform	React Native
Backend Tech	PHP, Laravel, Node.js
Testing Framework	Jest, React-Testing-Library, Cypress, Detox, Appium
Database	MySQL, PostgreSQL, MongoDB
API	REST, GraphQL (Node Server & Apollo Client)
CSS Framework & library	ANT design, Material Ui, Styled Components, SASS

## Employment History

---

### Senior Frontend Engineer, Webinterpret

Dec 2021 – Mar 2023

- ☐ Working on maintaining and adding new features to internal tools
- ☐ Improving Customer product page experience
- ☐ Automate the process of onboarding the customer.
- ☐ Migrated the apps to use latest version of React and React Native.
