## COURSEWORK

### UNDERGRADUATE

Compiler Design

Machine Learning

Operating Systems

Computer Networks

Software Engineering

Database Management

## SKILLS

### PROGRAMMING

Over 1000 problems:

• C++ • Java

Over 1000 lines:

• HTML • CSS • Bootstrap • NodeJS

• Javascript • ReactJS

Familiar:

• Github • Eclipse • MySQL • MongoDB

• Sublime Text • Visual Studio Code

## PROJECTS

### BUCKETLISTER | TRAVEL BOOKING WEBSITE | Live | Github

- Developed a full-stack web development project and implemented CRUD operations for stay bookings.
- Tech Stack — HTML, Tailwind CSS, JavaScript, ReactJS, NodeJS, MongoDB.
- Authentication is managed using cookies to enhance security and provide a seamless and persistent user experience.
- Images associated with accommodations are stored using Amazon S3, a scalable and secure object storage service.

### SHIPKART | E-COMMERCE PLATFORM

- Built an E-commerce store using the MERN stack and implemented CRUD functionalities for products and product types.
- Tech Stack — HTML, CSS, JavaScript, ReactJS, Bootstrap, NodeJS, MongoDB.
- A responsive web application where an authorized admin manages and controls his entire store listings.
- Users can conveniently browse the store with the help of various filters like categories, products, and brands.

## CODING PROFILES

### CODECHEF | 3 STAR

Highest Rating 1668

### LEETCODE | TOP 11.5 %

Highest Rating 1730

## AWARDS

- Qualified for the finals of GFG Solve for India hackathon representing the institute
- Qualified through all college-level rounds in the Smart India Hackathon.
- Secured Global Rank 1510 in Google Kickstart Round D.
- Secured Global Rank 3721 in Google Kickstart Round B.
- Secured Global Rank 1 in July Long Challenge on CodeChef.
- Secured Global Rank 93 in April Lunchtime Challenge on CodeChef.

## CERTIFICATION

- CyberOps Associate By Cisco Networking Academy
- Networking Essentials By Cisco Networking Academy
- CCNA 7: Switching, Routing, and Wireless Essentials By Cisco Networking Academy
