Skills

React, JavaScript, HTML 5, CSS3, Styled Component, Redux, GraphQL, NEXT.js, Video.js, Video Ads , Ruby, Rails, PostgreSQL, React Testing Library, Jest

Experience

Backlight Inc. | Noida, India

Software Engineer - I | 03/2022 - Present

- Implemented the Dashboard for OTT Apps using React.js, reducing GraphQL calls and integrating GraphQL in client-side apps to reduce backend load.
- Collaborated with the team to implement automated test cases using React Testing Library and Jest in the frontend application of React, significantly increasing test coverage from 5 percent to over 75 percent, ensuring comprehensive code testing and improving overall code quality. Built and worked on HTML5 smart TV apps, ensuring compatibility with Samsung, LG, and Vizio TVs.
- Implemented custom midrolls and Advanced Ad-Breaks in dashboard and apps, synchronized timing of ads, and created documentation and demos for all features.
- Led the integration of VIZIO Payment integration, creating workflow and providing expertise to implement functionality on other platforms.
- Successfully integrated Adobe Primetime from dashboard to backend and from backend to web apps, showcasing independent expertise and leadership.
- Upgraded React from version 15 to version 18, along with other dependencies, and resolved issues, ensuring smooth transition.
- Fixed various issues related to video player for smart TV and ad-related functionalities.
- Independently developed the user interface for an admin panel of a gaming application from scratch, utilizing Next.js, and completed it within an accelerated timeframe of one month
- Successfully integrated multiple APIs and implemented Redux for the login page of the Internal Dashboard, enhancing overall user experience and usability.
- Demonstrated exceptional ability to work independently and deliver high-quality results within tight deadlines, displaying strong time management and problem solving skills.
- Consistently met all deadlines and collaborated effectively with the team, displaying strong teamwork and time management skills.

Cognizant Technology Solutions | Kolkata, India

Programmer Analyst | 07/2020 - 02/2022

- Demonstrated expertise in agile methodology of development, serving as both a Developer and Technical Support in Multiple Finance Related Applications for the Client.
- Conducted comprehensive system testing, functional testing, integration testing, and regression testing, meticulously logging defects, monitoring their status, and tracking them to closure in Jira. Generated regular reports for leads
- Provided exceptional technical support to clients, effectively resolving their queries and maintaining positive relationships
- Created and maintained comprehensive documentation for the applications, ensuring smooth operations and ease of reference.
- Mentored and delegated tasks to junior developers and colleagues, facilitating their professional growth and development.

- Collaborated seamlessly with the team to implement new features in the application, preventing file overwrite issues and ensuring efficient file management.
