## PERSONAL PROJECTS

### Search it

- <https://shohailahm.github.io/imageSearch/>
- image searching platform using unsplash api

### React-native-circular-progress-dial

- made on top of react-native-progress-dial
- <https://github.com/shohailahm/react-native-circular-progressdial>

### Rest-with-springBoot

- <https://github.com/shohailahm/rest-with-springboot>
- Using springboot, Docker, travis ci

## ACHIEVEMENTS

### Designed / Developed Bulk upload tool

Designed the architecture and developed the bulk upload tool which involved the complexities of handling the large amount of data with 1000s of records with optimal performance.

### Increased unit testing code coverage to 90%

Increased the code coverage of the existing and legacy code base coverage to 90% from less than 50%

### Enhanced Development Quality by Upgrading Libraries

Upgraded webpack and react to 4 and 16.8 respectively from older versions to improve the development quality

### Code - NPM Module to Enhance Code Reusability and Modularization

Exported a complete project as the npm module to use it as library in other project
