## EDUCATION

**Amity University Madhya Pradesh** - Gwalior, IND  
Bachelor of Technology - **Computer Science and Engineering**, 2023

8 CGPA

## EXPERIENCE

**Hitachi Vantara** - Software Engineer Intern 01/2023 - 06/2023

- Designed and implemented features for web applications using **Django framework**
- Utilized **GraphQL** for **efficient and flexible data querying**, enhancing the API capabilities
- Collaborated with the team to **integrate third-party APIs** seamlessly into the applications
- Ensured code quality and standards compliance through **active participation in code reviews**

**Codeate** - Web Developer Intern 01/2022 - 05/2022

- Implemented new features and UI components in web applications using the React library
- Utilized Tailwind CSS to create **responsive** and visually **appealing user interface**

**Verzeo** - Machine Learning Intern 06/2021 - 11/2021

- Collaborated with the team to **optimize** and **fine-tune** models based on project requirements
- Engaged in **data annotation** to create labeled datasets for **training** and **testing** machine learning models
- Generated succinct reports on data analysis and model evaluations, fostering **team communication**

## PROJECTS

**Prime Price** - Web Scraper Next JS | Tailwind CSS | Cron | Cheerio | MongoDB

- Implemented a web scraping module, optimizing data extraction for **accurate** and **timely retrieval of crucial product information**
- Implemented solution for **monitoring** and **alerting** users of relevant **changes in product prices**
- Utilized Tailwind CSS to create **responsive** and visually **appealing user interface**

**Resume Master** - Resume Builder / Parser React | Redux | Tailwind CSS | Typescript

- Engineered a user-friendly resume builder with **real-time UI updates**, **compatibility with ATS**
- Incorporated a feature for users to **import** and **update** their **existing resumes** easily
- Ensured privacy focus** by enabling **local-only execution** in the user's browser, preventing data leaving the user's device

## SKILLS

**Backend Development** - Django, MongoDB, SQL, Node JS, **JAVA**, Microservices

**Frontend Development** - React JS, Next JS, Accessibility Implementation, Responsive Web Design

**Soft Skills** - Collaborative Team Player, Bias for Action, Effective communicator
