### Skills

### Professional Experience

#### IQVIA

*Associate Software Developer*

2022 - present

[React, JavaScript, Jest, HTML, CSS, Azure, MUI, AntD, GIT]

##### LLM based Application Frontend Development

- Initiated and led the Proof of Concept (POC), laying a strong foundation for the frontend development of the LLM Application, and was recognized and rewarded for these contributions.
- Successfully transformed the POC into a full-fledged project, taking ownership of the frontend architecture and design.
- Collaborated with cross-functional teams to ensure a cohesive and user-friendly frontend experience, resulting in positive feedback from end-users and stakeholders.

##### MMX Application Frontend Development

- Created multiple feature-rich modules within the MMX Application and implemented comprehensive test cases for quality assurance, contributing to the achievement of Team objectives and ensuring client satisfaction.
- Optimised code efficiency and implemented best practices, resulting in the seamless delivery of high-quality software solutions.

*Software Developer Intern*

2021 - 2022

- During my internship, I efficiently resolved various bug fixes, improving application stability. I leveraged React to develop innovative features, enhancing product functionality. Additionally, I ensured application reliability by creating meticulous test cases using Jest.

### Education

**Master in Computer Application**

2022

*Sikkim University* 

9.19 GPA | University Gold Medal | Sitaram Jindal Foundation Gold Medal
