## WORK EXPERIENCE

### FullStack Developer Samviddhi

07/2023 - Present

#### Achievements/Tasks

- Spearheading the design and development of a trading web application using React and Node.js, showcasing advanced proficiency in both technologies.
- Led the development of a trading site for a client, employing ReactJS to craft dynamic and responsive user interfaces.
- Successfully integrated third-party libraries, such as Bybit APIs, and seamlessly incorporated interactive charts into the React-based platform for an enhanced trading experience.

### Software Developer Amdocs

09/2021 - 07/2023

#### Achievements/Tasks

- Demonstrated proficiency in developing web applications using Springboot, Node.js, Angular, React while ensuring seamless integration with MYSQL, oracle.
- Involved in developing Microservices & Rest APIs.
- Actively participated in app testing, bug fixing and publishing activities.

## EDUCATION

### B.E IN INFORMATION TECHNOLOGY St. John College of Engineering & Management

06/2017 - 07/2021

#### Courses

- 8.80 CGPA

## SKILLS

JavaScript

React

Node Js

MongoDB

Next.js

React Query

Tailwind CSS

HTML5

CSS

Bootstrap

AngularJs

Angular

Flutter

Firebase

Dart

Java

Spring Boot

Microservices

Rest APIs

AWS

MySQL

Oracle

Figma

Postman

## ACHIEVEMENTS

### Recognition Award (09/2021 - Present)

*Received recognition award for exhibiting exceptional professionalism and making significant contributions to multiple projects.*

## PROJECTS

### Social Media App - Instapick (React JS, Appwrite, Tailwind CSS, React Query) [🔗](#)

- A modern social media app built using modern technologies with smooth UI. Integrated infinite scrolling feature, debouncing search feature. Used React query for optimized server operations and caching queries.
- [Instapick](#)

### QuickChat - MERN Stack Chat App with Real-time Messaging [🔗](#)

- This chat application is designed to facilitate seamless communication with both one-to-one and group chat functionalities, real-time messaging capabilities using Socket.io, including notifications.

### AT&T (09/2021 - 07/2023) [🔗](#)

- Exemplified expertise in Fullstack development at AT&T, utilizing diverse technology stack. Worked in complex microservices architecture comprising over 50 microservices. Handled multiple change requests and developed and supported it for production.

### ProductBazaar (Flutter, Dart, Firebase) [🔗](#)

- An online shopping app with integrated Firebase for CRUD operations, cart management, product listing, and authentication with autologin, state management, animations, user interaction, and device storage
