KPMG

Data Analyst

Bengaluru, Karnataka, India

November 2021 - June 2022

Consulting project- I'm working as an individual contributor (IC) with KPMG Netherlands consulting team to generate & modify business data & business data reports & dashboards for various Europe Clients by using SQL, Excel, Python, **Power-BI & Alteryx**.

- Also, in Consulting Project I write custom **SQL queries on SSMS** in order to serve ad hoc data request from various clients. I built Power-BI dashboards & business reports for various clients to give them data visualization & data analytics solutions in order to improve their business strategy & performance.
- Audit Data Analytics Project- I'm working as an individual contributor (IC) with KPMG Netherlands Audit Data Analytics team to generate reconciliation audit data reports with the help of Alteryx, Excel & Client data. Then I perform different audit data analytics operations with the help of KPMG data analytics proprietary tools to provide Audit Data Analytics solutions to various Europe Clients.

- In this project before generate the reconciliation audit data reports, I built Alteryx ETL Data Workflow on client data in order to achieve Data Cleaning & Data Validation operations, resulting the accurate data analysis in audit.

Latent View Analytics

Chennai ,India

July2021-Sep2021

Data Analyst

- a) Hands on experience of Extraction, Transformation and Loading in **SQL server database**
- b) Hands on experience in Designing and Visualizing the datasets using the **BI tool like Tableau**
- c) Hands on experience in creating and reporting datasets using **Excel**.

Globus Labs

Jamshedpur, Jharkhand, India

Data Analyst

September 2020 – June 2021

- a) Hands on experience of Extraction, Transformation and Loading in **SQL server database**
- b) Hands on experience in Designing and Visualizing the datasets using the BI tool like Tableau
- c) Hands on experience in creating and reporting datasets using Excel.

GENPACT

Gurugram, Haryana, India
