SUMMARY

Experienced in leading frontend development projects for web and mobile platforms. Proficient in implementing CI/CD strategies, optimizing performance, and delivering tailored solutions within Agile methodologies to meet client objectives.

EXPERIENCE

SDE-2 Present
Amber Student Pune, India

- Managed and supervised teams to concurrently develop and launch Amber mobile app and Amber web application.
- Implemented Continuous Integration/Continuous Deployment (CI/CD) procedures using Fastlane and Github actions, specifically for the mobile application.
- Orchestrated the end-to-end process of the Amber mobile app, from inception to deployment on both the App Store and Google Play Store.
- Enhanced app performance significantly by optimizing core components, resulting in a 40% reduction in load times and improved user satisfaction.
- Pioneered the implementation of industry best practices for code quality, code reviews, and continuous integration, leading to a notable 25% decrease in post-release bugs.

Senior Frontend Developer May '22 — May '23
Apptile India

- Orchestrated the entire lifecycle of third-party service integrations within our no-code platform, overseeing architecture design through to seamless implementation.
- Developed and implemented various Datasource integrations tailored specifically for our no-code platform.
- Designed, developed, and oversaw the management of intuitive no-code UI components, ensuring optimal user experience and functionality.
- Adhered to Software Development Life Cycle (SDLC) best practices within an Agile environment, facilitating swift iterations to meet client requirements and deliver rapid solutions.

Front End Developer Feb '19 — Jun '22
Vectoscalar Technologies Pvt Ltd

- **CoinSwitch Kuber:** Led a team of developers in product Growth pod. Created responsive & high-quality UI for CoinSwitch platform, with a particular focus on performance. Translated requirements and mockups into fully functioning features using React & React Native. Worked on third party libraries like Firebase, Clevertap, AppsFlyer etc
- **Pokerbaazi:** Integrated Juspay payment aggregator in the application. Created Leaderboard for ongoing events. Created fully reusable, adaptive + responsive components of the platform
- **Other Projects:** Eddy Learning, Logichub, Prudential Pulse app, Casaperks, Voyapic etc.

SKILLS

Programming Languages Javascript, Typescript, C++

Front End Development React.js, SCSS, CSS, HTML, Next JS

Backend Development Node JS

Mobile Development React Native

Testing and Integration Jest (JavaScript Testing Framework), Enzyme, React Testing Library

Version Control and Deployment Github, Fastlane, Google Play, App Store (IOS)

Third party services Firebase, Redux, Redux thunk, Redux-Saga, MobX

EDUCATION

Master of Computer Applications, Bharati Vidyapeeth's Institute of Computer and Management Jun '16 — Jun '19
New Delhi, India

Bachelor of Computer Applications, Maharaja Surajmal Institute Jun '13 — Jun '16
New Delhi, India

CERTIFICATIONS

Certified ScrumMaster May '22
Scrum Alliance

Certification in Scrum framework for agile project management.
