Education

BMS Institute of Technology (affiliated to VTU)

Sept 2017 - July 2021

Bachelor of Engineering in Information Science & Engineering

- **Main coursework:** Data Structures, Design and analysis of Algorithms, Computer Architecture, Artificial Intelligence, Database Systems, Operating Systems, Software Engineering.
- **Project: Employee Performance Analysis using RPA**
 - Used Automation Anywhere tool to implement this project.
 - Developed a system which minimizes the resources used to evaluate the employee's performance of any organization.
 - The proposed system analyzed the employee's performance based on factors like total number of working days, client's feedback and so on which were taken directly from an excel sheet
