## EXPERIENCE

### Software Developer

#### iASYS Technology Solutions

📅 08/2022 - Present 📍 Pune, India

Develop Product Validation Management System

- My primary focus is to create, maintain, and design responsive web applications using React.js, HTML5, Bootstrap, CSS3, and JavaScript.
- I developed RESTful APIs and also integrated external APIs into the application, which helped to improve the overall functionality of the system.
- I have experience in developing backend services using Java and SpringBoot. My focus is on ensuring optimal performance and scalability of the services.
- I used Python for scripting and automating various tasks, which significantly enhanced our development efficiency.
- I developed modular and maintainable code using Object-Oriented Programming (OOP) principles.
- I have experience participating in code reviews and offering constructive feedback to my team members.
