## EDUCATION

<b>Shri Ram Murti Smarak College of Engineering &amp; Technology, Bareilly , Bareilly U.P. , India</b>	Nov 2020 - June 2022
Master of Computer Applications (MCA)	GPA: 8.41
<b>Bareilly college,Bareilly , Bareilly U. P. , India</b>	Sep 2017 - Oct 2020
BCA	GPA: 6.3

## PROFESSIONAL EXPERIENCE

<b>Hobit technology - India</b>	June 2023 - Present
Backend Developer	
<ul style="list-style-type: none"><li>Optimized Database Performance: Conducted a thorough analysis of database performance bottlenecks and implemented optimizations, including query indexing and database schema improvements, resulting in a 40% reduction in database response times and a more responsive user experience.</li><li>Implemented Secure Authentication and Authorization</li><li>Resolved Critical Production Issues</li></ul>	
<b>loanyt Innovations - Noida India</b>	Dec 2022 - May 2023
Software Engineer Trainee	
<ul style="list-style-type: none"><li>Investigate and promptly resolve issues, applying continuous improvement strategies to prevent their recurrence in future releases.</li><li>Implemented transactional APIs to provide atomicity and consistent to multi-step operations, resulting in more reliable, collaborate,maintain and efficient data processing.</li><li>Work on multiple web apps where I have mentoring application performance, code review, employing appropriate strategies to identify and address bottlenecks.</li></ul>	
<b>Quixgo Infotech Pvt Ltd - Noida India</b>	March 2022 -Dec 2022
Backend Developer	
<ul style="list-style-type: none"><li>A courier aggregator web Application where users have multiple options of service providers to ship their courier across pan India.</li><li>Front-End : React.js and Redux.</li><li>Back-End : Node.js Express.js and MySql</li><li>Employ unit testing with mocking frameworks and automation of component, integration, and end-to-end tests, ensuring code reliability, codebase and maintainability.</li></ul>	

## PROJECTS

<b>The Heartbeast</b>	March 2023
<ul style="list-style-type: none"><li>Developed APIs to manipulate S3 objects, such as adding tags and storing file information in the Dynamo dbtable,which improved the overall user/customers experience with cloud computing.</li><li>Monitor application performance, employing appropriate strategies to identify bottlenecks,</li><li>Implemented transactional APIs(async programming) to provide atomicity and consistency to multi-step operations, resulting in more reliable and efficient data processing/multiprocessing.</li></ul>	
<b>Hobit</b>	june 2023
<ul style="list-style-type: none"><li>HOBIT is a revolutionary platform(Mobile/web App) designed exclusively for those seeking Fun-loving workouts. Our platform is a haven for fitness enthusiast who believe exercising should be enjoyable.</li><li>Develope REST API that enable communication between the frontend and backend, allowing data exchange and functionality.</li><li>Offers multiple services relatated to music dance and fitness</li></ul>	

## SKILLS

Functional :	Problem Solving, software development lifecycle, Agile, Multi-tasking, Troubleshooting , Optimization
Technical :	NodeJs, AWS, JavaScript , GCP, Data Structures, C/C++ programming , Typescript, Git, Microservices , Object-oriented programming, REST API, Java, NoSql, Linux, HTML5, CSS3, SQL, Python, React, Nest.js, JSON

## ACHIEVEMENTS

- Silver Medalist: Awarded for outstanding academic performance and achievements during the MCA program.
