Aggregate - 75%

About Me

Experienced Software Developer with 5 years of expertise in full-stack development. Proficient in Node JS, React JS, Express JS, and MongoDB, I excel in creating scalable and efficient solutions. With a strong problem-solving aptitude and keen attention to detail, I've successfully delivered high-quality software products. Collaborative by nature, I thrive in dynamic team environments, translating business requirements into technical solutions. I stay abreast of industry trends and am well-versed in database management and DevOps (AWS, GCP, Azure, Docker). Eager to contribute my skills and passion for innovation to propel projects forward in the ever-evolving realm of software development.
