Professional Experience

Frontend Engineer

Bessell Consultancy Services

July 2023 - Present

- Collaborated closely on impactful company projects, contributing expertise and driving success through teamwork, resulting in timely project delivery and increased customer satisfaction.
- Conducted thorough code reviews on pull requests, ensuring high quality and adherence to best practices, leading to a significant reduction in bugs and technical debt.
- Mentored junior frontend developers, providing guidance and support throughout project implementation, resulting in improved team cohesion and knowledge sharing.

Skills: React, TypeScript, Next.js, RESTful APIs, Redux

Associate Frontend Engineer

CreateMe Technologies

October 2022 - December 2023

- Launched two e-commerce product personalization prototypes for Moynat and New Balance brands, resulting in an improved user experience through the implementation of 3D product support and text/image personalization.
- Launched a web-based feature for the Fender brand, resulting in an improved user experience through the implementation of on-demand PDF generation with 3D product support.
- Developed three custom features for a React-based library, contributing to a 50% increase in ease of use. This involved creating various components, custom hooks, unit tests, and Storybook documentation.

Skills: Flux, React, TypeScript, Storybook, Vitest, React Testing Library

Fullstack Developer

Servitalleres

August 2017 - September 2022

- Developed a web-based app, leading to a 50% increase in productivity. This was achieved by implementing online document/image handling and real-time quotations, prioritizing centralized information management and aligning with business logic.
- Redesigned the company website, resulting in a 60% increase in lead conversion. This was achieved by leveraging the WordPress framework, creating custom plugins, implementing a customer service ChatBot based on DialogFlow and implementing CRM/email marketing integrations.

Skills: JavaScript, Laravel, WordPress, Bootstrap, PHP, PHPUnit, Python, PostgreSQL, ChatBots, DialogFlow
