WORK EXPERIENCE

Software Engineer Velotio

02/2022 - Present

India

Building Delightful Software Products & Digital Experiences for Innovative Startups and Enterprises

Achievements/Tasks

- Integrated security tools, supporting deal blocking features, contributing to 20% revenue growth.
- Proactively monitored system logs and APIs, identifying and resolving bugs, enhanced system reliability, resulting in a significant 15% performance improvement.
- Implemented Bulk Functionality for Security tools, saving time and resources, and developed SLA features for prompt security concerns.
- Improved Ticketing System integration for streamlined issue resolution and enhanced customer experience.

Software Development Engineer Nokia Siemens and Networks

07/2020 - 02/2022

India

Achievements/Tasks

- Handled critical bugs, supported internal CI, and acted as primary team contact.
- Worked on Kafka issues, log enhancement and scrambling.
- Improved CM operation robustness and optimized loading issue for resolving service getting stuck in ready state, reducing downtime by 80%.
- Contributed to Cloud Native POC and roll-out, ensuring code compatibility and successful migration to cloud.

Software Developer Engineer Intern Nokia Siemens and Networks

08/2019 - 07/2020

India

Achievements/Tasks

- Built log analyzing tools for easier debugging.
- Enhanced developer skills; gained Robot automation knowledge.
- Achieved unit testing coverage using JUnit and JMockit.

EDUCATION

Bachelor of Engineering in Computer Science Engineering

Chandigarh University

06/2016 - 06/2020

8.01

Higher Senior Secondary School Mayur Public School

05/2013 - 04/2015

83.4

SKILLS

Java

SpringBoot

Hibernate

MySQL

Kafka

Docker

Redis

GoLang

Data Structures and Algorithm

Jenkins

Git

Jira

Operating System

DBMS

ELK

AWS

Communication Skills

Automation

Time Management

ACHIEVEMENTS

Awarded Certificate of Rising Star

Demonstrated excellent analytical skills

Awarded SDM Excellence Award

Contributed excellently for feature roll-out, bug fixes and cloud native poc support

PERSONAL PROJECTS

Voting Website

- Prepared a system through which the voting organizer and the voter could login for the purpose voting.

Gender Detection

- Made a project which can classify the humans on the basis of their gender i.e. male or female. For this project concept of ML based on image recognition is used.

Chat Box

- Prepared a system through which people from around the globe can join and communicate with each other.

CERTIFICATES

Algorithm Tool Box (04/2019 - Present)

<https://t.ly/QavqH>

Cloud Computing using AWS. (05/2018 - Present)
