Result-driven developer with a strong background in mobile application development.Skilled in integrating REST APIs, resolving bugs, and providing technical solutions to enhance overall product performance and user experience.

Experience

Flutter Developer
BINARYMETRIX TECHNOLOGIES / 10/2023 - 02/2024

- **Yopee Car Washing App (Customer & Cleaner):** Spearheaded the UI design and implementation phases, actively involved in requirement gathering and development. Integrated REST API for data display and utilized Firebase Cloud Messaging for push notifications. Implemented Twilio SMS services for OTP verification and Razorpay payment gateway for transactions, enhancing app functionality and user engagement.

- **Pull up Live Application:** Played a key role in UI design and development, ensuring seamless user interaction. Integrated REST API for data retrieval and facilitated social login via Google authentication, fostering user connectivity and engagement.

Android Developer
BROADWAY INFOTECH / 12/2021 - 10/2023

- **Andersen Mobile App:** Contributed to UI design and development, including REST API integration and bug fixing. Utilized Firebase Cloud Messaging for push notifications, ensuring timely communication with users.

- **Petroleum Planning & Analysis Cell (PPAC):** Designed and developed a mobile application with a focus on user interface development. Successfully consumed REST services and implemented Google location API for enhanced functionality.

- **Save a Life App:** Played a key role in the design and development of a mobile application aimed at providing mapping and citizen responders management. Implemented updated REST API and integrated Google location API for real-time location tracking. Utilized Firebase Cloud Messaging for instant messaging functionality.

- **LTTech App:** Designed and developed a mobile application for LtTech Transport, the largest refrigerated transport company in Geelong, Victoria. Implemented the VIPER architectural pattern for enhanced scalability and maintainability. Integrated updated REST API and used Provider for efficient state management.

- **Seafood Mobile App:** Updated the design of the application, fixed bugs, and tested the application. Implemented updated REST API to ensure seamless data retrieval and integration.

- **Regional Centre for Biotechnology (RCB) Mobile Application:** Updated the UI of the application, conducted testing, and fixed bugs to ensure smooth user experience. Implemented updated APIs to enhance functionality and integration.

Android Developer
DEPEX TECHNOLOGIES / 01/2020 - 12/2021

Edusams: Led the design and development of the application UI, ensuring user-friendly navigation and experience. Implemented app updates and bug fixes to maintain optimal performance.

UI/UX Developer
Delve Logic / 01/2016 - 04/2016

Poolmyride: Maintained existing applications and contributed to the design and development of new components. Presented web design plans and UI layout ideas to stakeholders.

Education

Master of Computer Applications (MCA)
NOIDA INSTITUTE OF ENGINEERING AND TECHNOLOGY / 08/2014 - 06/2016
Greater Noida

Secured 1st position, GPA: 85.9

Bachelor of Computer Applications (BCA)
KHANDELWAL COLLEGE OF MANAGEMENT SCIENCE / 07/2011 - 06/2014
Bareilly

Secured 2nd position, GPA: 76

Certifications:

- Completed a 3-hour online training for parsing JSON data from a web API to an Android Application on UDEMY in 2021.
- Completed a six-week online training on AngularJs from Internshala in 2017.

Additional Information:

- Achieved 1st position in a debate competition at the college level.
- Selected for an International tour to Dubai in 2014 for securing 1st position in BCA.
