EXPERIENCE

Inkers, Bangalore — *Fullstack Developer*

October 2023 - February 2024

- Upgraded the dashboard and javascript tooling for performance and DX.
- Integrated pdf generator using React and pdf.js.
- Redesign the Component UI using Tailwind and primereact.
- Developed cross platform mobile app using react native and Expo.

Codevyasa, Delhi — *Software Engineer*

December 2022 - June 2023

- Designed and developed a real time responsive dashboard using ReactJS and Ant Design.
- Utilized React Query to handle data fetching and Redux toolkit for state management.
- Integrated React Flow, Recharts and drag & drop features.
- Integrated charts that dynamically display real time data sourced from AWS IoT.

9bits, Bangalore — *Frontend Developer*

August 2021 - July 2022

- Used HTML5 to create forms and CSS3 to enhance the visual appearance of the form.
- Incorporated Bootstrap classes and components to create a responsive form layout.
- Ensured proper form validation using jQuery validation plugins or custom validation logic.
- Collaborated with the team to plan and execute the migration of the dashboard in React.
