PEDRO HENRIQUE
MORAES RODRIGUES

Software Engineer

I am a dedicated and enthusiastic full-stack developer with strong technical experience and education. I am very experienced with multiple computer languages, including Javascript (React/NodeJS), CSS, HTML, PHP, and SQL. Additionally, I have a Bachelor's degree in Computer Science, I'm working on a MicroMaster's in Algorithms and Data Structures, and I have fifteen years of experience working as a web developer.

I work in an agile software development environment, collaborating with other departments to ensure that a top quality product that meets clients' needs is always produced. I have excellent technical and analytical abilities and my coding strengths as a programmer mean I am able to correctly execute needed code solutions with few errors.

I have good verbal and written communication skills. I am highly detail-oriented and can visualize how code will translate into the finished application. I enjoy being challenged and engaged with projects that require me to work outside of my comfort zone and knowledge set.

Continuing to learn new development techniques and improving my logical reasoning skills are very important to me because I believe that technology is just a tool, and my focus is to solve problems in a better, simpler, and quicker way.

EDUCATION

2023 - 2024	**ALGORITHMS AND DATA STRUCTURES** MICROMASTER, UC SAN DIEGO - USA
2023 - 2024	**SOFTWARE ARCHITECTURE AND SOLUTIONS** POSTGRADUATE DEGREE, XP EDUCAÇÃO - BRAZIL
2005 - 2010	**COMPUTER SCIENCE** BACHELOR'S DEGREE, FEDERAL UNIVERSITY OF GOIAS - BRAZIL
