BACK END DEVELOPMENT | Django • Django REST framework • Python • PostgreSQL • MySQL

SOFT SKILLS | Team work • Military discipline • Sergeant leadership

EXPERIENCE

SPANISH ARMY | **ReactJS, Redux, Tailwind, Machine learning, Django, Django REST framework, PostgreSQL.**

Software Engineer - IT Specialist Sergeant

Aug 2019 – Present, Valencia (Spain)

- **Full stack development of OSINTRACK web app** | I have developed a web app that allows military analysts to monitor and research topics of interest for the Spanish Army on social media, concretely on Twitter and Telegram. The app has been deployed on a server integrated into a local network at the Information Environment Analysis Center. **Scope: the web app generates graphs, indicators, and other informative elements with which a report is generated that is sent weekly to the Army Staff and other Units across the institution.**

- **Head of the IT department of a Battalion** | Apart from the development of the OSINTRACK application, since 2019 I have been in charge of the IT department of an information operations battalion. Some of the tasks that I have carried out in this position are: design and deployment of networks and information systems for military exercises, management of user incidents (approximately 50) with Windows AD, advice on IT issues, inventory management and procurement of software and hardware.
