PROFESSIONAL SUMMARY

Analytically driven Data Analyst with a strong background in statistical analysis and data interpretation. Proficient in tools such as SQL, Excel, PowerBI , Tableau and experienced in extracting actionable insights from complex datasets. My academic background, with hands-on projects, has equipped me with the skills to navigate complex datasets and deliver data-driven solutions. Demonstrated ability to deliver accurate reports and contribute to informed decision-making. Seeking to capitalize on analytical skills and technical expertise to drive data-driven solutions

INTERNSHIPS (Data Analyst)

Accenture North America Data Analytics and Visualization Job Simulation on Forage   **January 2024**

- Completed a simulation focused on advising a hypothetical social media client as a Data Analyst at Accenture
- Cleaned, modelled and analyzed datasets to uncover insights into content trends to inform strategic decisions
- Prepared a PowerPoint deck and video presentation to communicate key insights for the client and internal stakeholders

Tata Data Visualisation: Empowering Business with Effective Insights Job Simulation on Forage   **February 2024**

- Completed a simulation involving creating data visualizations for Tata Consultancy Services
- Prepared questions for a meeting with client senior leadership
- Created visuals for data analysis to help executives with effective decision making

WORK EXPERIENCE

Cognizant Technology Solutions | Programmer Analyst   **Feb 2022- May 2023**

- Coordinated closely with designers to interpret design specifications and bring them to life in the development phase.
- Ensured seamless integration of design elements into the overall functionality of web applications.
- Led the design and development of intuitive and user-friendly web applications, focusing on enhancing the overall user experience.
- Utilized front-end technologies, including HTML, CSS, JavaScript, to build responsive and visually appealing user interfaces.
- Collaborated with cross-functional teams to address and resolve issues promptly.
- Participated in agile development methodologies, contributing to sprint planning, and reviews.
- Conducted regular code reviews to ensure adherence to coding standards, optimize performance
- Generated comprehensive technical documentation, including design specifications, user manuals.

Slikk.AI | Product Designer   **July 2023 - Oct 2023**

- Spearheaded the design and development of a B2B SaaS Task Management Application, ensuring a sleek and user-friendly design.
- Utilized statistical techniques to analyze user behavior data, identifying patterns and trends for informed design updates.
- Implemented iterative design updates to enhance the user experience continually.
- Collaborated with product managers and developers, to align design with project goals.
- Produced detailed reports and documentation summarizing data insights, contributing to streamlined collaboration and ensuring consistency in decision-making.

SKILLS

- **Programming Language** - SQL , Python [Basic Level]
- **Data Analysis Tools:** Microsoft Excel
- **Data Visualization:** Power BI ,Tableau
- **Database Management :** MySQL
- **Statistical Analysis:** Regression Analysis, Hypothesis Testing
- **Core Competencies** - Storytelling , Presentations , Strategy , Project Planning

PROJECTS

Netflix Data Analysis - [Tableau | Excel]

- Conducted exploratory data analysis (EDA) on a Netflix dataset in Excel, extracting key insights into viewership patterns and content preferences.
- Employed Tableau for data visualization, creating interactive dashboards to showcase trends and analytical findings.
- Applied clustering algorithms to segment viewers based on their content preferences, enhancing the granularity of the analysis.
- Implemented data aggregation techniques to derive meaningful metrics, such as average watch time and genre preferences.
- Developed and presented a comprehensive Tableau report, incorporating calculated fields and parameters for an in-depth analysis of Netflix user behavior.

HR Data Analytics - HR Domain [Power BI | Excel]

- Designed a Power BI dashboard to track employee data for HR team, including working hours, attendance , performance and leaves.
- The dashboard streamlined HR process and increased efficency.
- The dashboard designed could save 3-4 hours of work for the HR daily

COURSES & CERTIFICATIONS

- **Power BI Data Analyst Associate** by **Microsoft** - Businesses need data analysis more than ever. In this learning path, learnt about the life and journey of a data analyst, the skills, tasks, and processes that go through in order to tell a story with data so trusted business decisions can be made. How the suite of Power BI tools and services used by a data analyst to tell a compelling story through reports and dashboards, and the need for true BI in the enterprise.

- **IBM DA0100 Data Analytics Basics for Everyone** by **edX** - Course introduces to the key tasks a Data Analyst performs in a typical day, and includes how a Data Analyst identifies, gathers, wrangles, mines and analyzes data, and finally communicates their findings to different stakeholders in an impactful way.

- **Business Intelligence using Power BI Certified by Skill Nation**

EDUCATION

Jain College of Engineering, Belgavi (Bachelor of Electrical & Electronics)   **2017-2021**
