EXPERIENCE

Accenture
2019 - PRESENT
I have 5 years of experience as a QA Engineer in Functional Testing, Automation Testing and API testing. I have worked in both Medical Insurance and E-Commerce domains.

Automation Testing
As an Automation Tester, I have experience in implementing Cucumber BDD framework using Selenium WebDriver with Java. I do automation test script preparation, execution, optimization, effort – estimates and defect tracking. Also experienced in Jenkins & Selenium Grid. I also do API Testing with tools like Postman.

Functional Testing
As a QA, I actively involve myself in PI planning, Daily standup calls, Backlog Refinement meeting, User stories Analysis with BA and Sprint Retrospective Meetings. I have worked in Test Management tools like JIRA, ALM and Rally. I have experience in Smoke Testing, Sanity Testing and Regression Testing as well.

SKILLS

- Acceptance Testing
- UI Automation
- Selenium - Cucumber
- Jenkins
- API Testing using Postman.
- C, C++, Java
- Problem Solving
