- dwij.bharodiya@gmail.com

PROFILE

I am a full-stack developer with hands-on experience in crafting secure, data-intensive, and event-driven applications tailored for large-scale.

WORK EXPERIENCE

Associate Software Engineer | OneAdvanced
2022-present
- Worked on company's saas product MyWorkPlace
- Created responsive UI components. And improved some existing components by fixing their state binding and props drilling.
- Improved the efficiency of backend processes by making them asynchronous and event-driven, resulting in an 80% reduction in cloud costs.

Projects ([Click to checkout my all projects](#))

XrpTrustFlow

Create Escrow on XRP Blockchain with No Code! Use our drag-and-drop interface to create custom escrow conditions without any coding skills required.
- https://devpost.com/software/xrptrustflow

xCollateral

Overcollateralized DeFi using XRPL's AMM & side chains for a swift, secure solution.
- https://devpost.com/software/xcollateral

dInvoice

Empower your invoicing with dInvoice: Own your data securely with Web5.js, hassle-free cross currencies invoice payments via tbDEX. Privacy-driven, transparent, and decentralized. Take control today!
- https://devpost.com/software/dinvoice

StreamVerse

An Ecosystem for streamers to monetize their streams and moments without any third party arbitration. Providing inter-player 3D interaction as base layer.
- https://devpost.com/software/streamverse

Achievements

- **FirstCry (Vulnerability Disclosure) (**[Certificate](#)**) (**[Hall of fame](#)**)**
- **AWS Developer Associate (Udemy) (**[Certificate](#)**)**
