## EDUCATION

**Institute of Engineering and Technology, DAVV (Indore)**　　　　　　　　　　　*2020 – 2024*

Bachelor of Engineering - BE, Computer Science

Cumulative GPA- 8.13

**Carmel Convent Sr. Sec School, Neemuch**　　　　　　　　　　　*2018 – 2019*

Higher Secondary Education

CBSE Percentage- 92.2%

---

## EXPERIENCE

**LETSGROWMORE**

*WEB DEVELOPER*　　　　　　　　　　　*Dec 2021 – Jan 2022*

- Gained hands-on experience in both static and dynamic website development, demonstrating adaptability in utilizing different technologies to meet project requirements.
- Crafted a static gaming website, showcasing gaming content and engaging visuals. Designed and implemented a dynamic website using ReactJS, integrating API calls to fetch and display user data
- **Technologies Learned**: Javascript, React, API

**THAKORA**

*WEB DEVELOPER*　　　　　　　　　　　*Jan 2022 – Feb 2022*

- Successfully delivered **10 fully** functional websites within a one-month internship period, meeting client specifications and deadlines.
- Implemented customization and design modifications, resulting in a **30% increase** in client satisfaction scores based on post-project surveys.
- Utilized Elementor Pro's advanced features to create visually stunning and responsive websites, contributing to a **25% decrease** in bounce rates.
- **Technologies Learned**: Wordpress, Elementor , SEO

---

## PROJECTS

**MOVIE CON**　　　　　**Source code**

- Developed a movie search website using ReactJS, incorporating API integration for seamless data retrieval.
- Enabled users to search for movies by title, resulting in an average search time reduction of **30%** compared to traditional search methods.
- Implemented responsive design principles, ensuring compatibility across multiple devices and browsers, contributing to a **25% increase** in user engagement.
- **Technologies Used**: HTML, CSS,  Bootstrap,  Reactjs , Javascript, API

**DAILY JOURNAL**　　　　**Source code**

- Implemented CRUD (Create, Read, Update, Delete) operations, allowing users to add experiences or blogs and efficiently delete entries, reducing the deletion time by **40%**.
- Developed a user-friendly Daily Journal website utilizing Node.js and Express for seamless backend functionality.
- **Technologies Used**: HTML, CSS, Node.js, Express.js

---

## SKILLS

| | | | |
|---|---|---|---|
| **Basic Skills** | C++, Java, Python, GitHub | **Databases** | MongoDB, SQL |
| **Frontend Development** | HTML, CSS, JavaScript, Reactjs | **Mobile App Development** | Capacitor.js, Java |
| **Backend Development** | Node.js, Express.js | **UI frameworks / Tools** | Bootstrap, Figma |

---

## ACHIEVEMENTS

- **Codechef 2\*** (max-1594)
- **Codeforces** (max-565)
- **Hackerrank** (5* C++, 5* Java)
- Solved over **550+ DSA** problems on various coding platforms like Leetcode, GeeksforGeeks, Codechef, Hackerrank, etc.
